## **EXPLOSION VENT**

• Passive explosion protection system

• Simple construction, highly reliable

Safe venting on outdoor installations

## ADVANTAGES

- Equipment certified to ATEX, in compliance with NFPA
- Maintenance-free
- Different sizes available

Application	- Can be used on all dry dust applications which require explosion protection - For metal and organic explosive dusts - Also applicable for high-vacuum applications
Installation Options	<ul> <li>Explosion vent panels can be configured to all Gold Series dry dust collectors (outdoor installation)</li> <li>This component allows venting into a safe outside area</li> <li>Vent panels will be factory installed</li> </ul>
Comment	- Damaged vent panels must be replaced after an incident of explosion - We supply equipment which is compliant according to regional regulation such as ATEX or NFPA
